

Decorative ■ Glass

Sandy High School – Sandy, Oregon

Moon Shadow Glass™

Moon Shadow Glass began producing etched glass in the late 70s, furnishing decorative glass to the home building market, with designs for windows, doors, sidelights, and cabinets. From these humble beginnings they established a company known for the highest quality decorative glass, superior customer service and on-time delivery. Moon Shadow's goal has always been to impress their customers, and to work with the customer to use glass to enhance their projects.

Charlotte Transit Station - Charlotte, North Carolina

:: TRANSIT ::

Moon Shadow Glass revitalizes transit stops across the nation with an innovative glass etching style, and the highest attention to quality and details.

With two types of etching, transparent and opaque, customers may choose what is best for their transit stop needs. Transparent etching features visible artwork, allowing drivers to easily see potential passengers, while bypassing empty stations and maintaining tight schedules. Opaque etching features artwork that creates the illusion of depth and highly detailed displays that enhance transit shelters.

• Light Transparent Etching

• Heavy Opaque Etching

Moon Shadow can supply you with decorative patterns and designs or you can supply custom artwork to make your transit stations unique to your area.

Woodburn Elementary - Camas, Washington

:: LAMINATE GLASS ::

One of Moon Shadow Glasses newest techniques is the Laminated Glass process where we can take about almost and substance and laminate it to glass. This allows use to make everything from magnetic eraser glass panels to highly detailed real life images in glass. We can even take small reeds of real grass and laminate it. Add this to our paint filled and etched glass you will have a one of a kind unique look.

:: THE SHOP ::

Our employees are trained that quality comes first and we don't take short cuts to get the product out on time and under budget, at any time if an employee see a problem with a product they can stop production so that it is corrected and done right. By empowering the employees this way we know we will deliver the highest quality product all the time to our customers. Quality is always first on our minds.

Moon Shadow Glass has two state of the art commercial sandblasters, a hand blasting booth for the detail work, two commercial glass washers, a CNC grooving machine, two over head cranes, two forklifts, full dark room and screen printing capabilities and a state of the art extra large commercial laminating oven, plus other trade secrets we can't reveal here.

With over 30 years of creating decorative glass "We can truly state that if it can be done with glass - we can do it."

TO PHYSICALLY WANDEER, TO LET OUR MINDS WANDEER, TO DAYDREAM, HAS BECOME MUCH UNDERVALUED.
OUR MINDS OFTEN DO THEIR BEST THINKING WITHOUT OUR CONSCIOUS INTERFERENCE.*

TOOTS ZYNSKY

"In an age in which the relevance of beauty to art is widely questioned, Zynsky's work is unequivocally beautiful. The intimacy of retained color, the tactile quality of flared walls, the swirling energies of shape and pattern are transformed into a luminous whole through the interaction between glass and light." -ANTHONY C. DIANO, CURATOR
